

The Intercollege Graduate Degree Program in Ecology

Spring Seminar Series

112 BORLAND, MONDAYS 4 PM*

*unless otherwise specified

SAVING A CHANGING WORLD

Ecology in the Public Eye

23 January

JEAN BURNS

*Understanding the Role of
Phylogeny in Community
Assembly*

Case Western Reserve University
Department of Biology

30 January

SCOTT ISARD

*Preparing for Continental-Scale
Aerial Invasions of Plant
Pathogens*

Penn State University
Department of Plant Pathology

6 February

NORRIS Z. MUTH

*Jack of All Trades, Master
of Some: Phenotypic Plasticity
and Alien Invasive Plants*

Juniata College
Biology Department

Tuesday, 14 February

100 Life Sciences, Berg Auditorium, 4 pm

SHAHID NAEEM

TBA

Columbia University
Ecology, Evolution, and Environmental Biology

20 February

MATTHEW HURTEAU

*Managing Risk in Forest-Based
Climate Change Mitigation*

Penn State University
School of Forest Resources

27 February

DAVID WOLFE

*Transforming Ecosystem and
Farm Management for a
Changing Climate*

Cornell University
Department of Horticulture

12 March

DAVID MORTENSEN

TBA

Penn State University
Department of Crop and Soil Sciences

19 March

SAM DROEGE

*The Crooked Path to a National
Bee Survey: Statistics, Logistics,
and Personal Commitments*

USGS Patuxent Wildlife Research Center

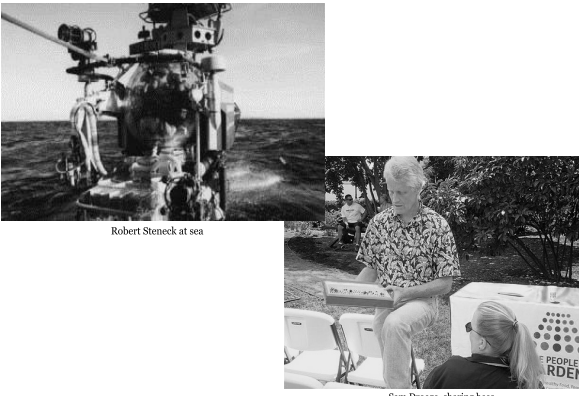

Congressional testimony, David Wolfe

26 March

CHRISTINA GROZINGER

*The Genomics of Pollinator
Social Behavior and Health*

Penn State University
Department of Entomology

Robert Steneck at sea

Sam Drooge, sharing bees

2 April

GARY MITTELBACH

*Gradients in Biodiversity from
the Small to the Large*

Michigan State University
WK Kellogg Biological Station

9 April

ROBERT STENECK

*A Marine Ecologist in the Court of
Public Opinion: Selling Ideas in
a Skeptical and Polarized World*

University of Maine
School of Marine Sciences

16 April

DON WALLER

*Disassembly Rules: What Drives
Long-Term Ecological Change
in Wisconsin's Forests?*

University of Wisconsin
Madison Department of Botany

23 April

CALDWELL HAHN

*Invasive Species and Climate
Change: Does Immunology
have a Role?*

USGS Patuxent Wildlife Research Center

Sponsored by: Penn State Institutes of Energy and the Environment
The Huck Institutes of the Life Sciences
Earth and Environmental Systems Institute
Environment and Natural Resources Institute
